

SUSTAINABLE DEVELOPMENT AITAS KZ

ESG Report 2024

ABOUT THE REPORT

Dear Reader,

We are pleased to present the 2024 Sustainability Report of Aitas KZ JSC.

This Report is intended to inform a broad audience of stakeholders about the Holding's performance. It includes data on our contributions to the economic, infrastructural, social, and the country's environmental development. The document highlights our key achievements, our impact on sustainable development, as well as our plans and future directions for growth.

We are committed to ensuring effective and high-quality communication with our stakeholders and therefore adhere strictly to leading international standards in sustainability reporting.

This Report has been prepared with reference to the Global Reporting Initiative (GRI) Standards and covers the period from January 1, 2024 to December 31, 2024. The non-financial report is issued on an annual basis.

The Report has undergone limited assurance with respect to selected sustainability indicators.

Please note that we reserve the right to amend the content without prior notice to third parties. Any full or partial reproduction, distribution, or modification of the information without our consent is prohibited.

Thank you for your attention. We hope you find this presentation informative and engaging.

Dear Friends and Partners,

We didn't adopt ESG principles overnight. For years, we have embraced sustainability, guided by respect for the society and the country where we live and grow. Our philosophy is holistic: business and social work are equally important and remain in harmony and balance.

Everything you will read on these pages is an honest account of who we are. We do not separate business from social activity, as we view sustainability as a strategic priority. In business, we are guided by our Purpose, Mission, and Values. In our social engagement, we act with strategy, courage, willpower, and curiosity.

Our work is structured so that social initiatives inspire and give meaning, while business ensures those meanings are sustainable. Business delivers food security for the country, while the social side raises questions about the image of the future and the next generations. That is why there is no divide in our approach between business and society.

We see a holistic picture — one cannot exist without the other. In this balance lies our maturity and our strength.

Today, we have chosen to give this philosophy a shape — and to show the results of our work. Behind every number is a team. Behind every initiative — a story. Behind every action — a purpose. And in this report — this is us, the real us. Not formal. Not faceless. Not glossy. Just who we truly are.

And if you read to the end, we hope you'll think: "These people — they really are different." Because we haven't just started on the path to sustainability — We've been walking it with purpose and consistency.

I sincerely thank everyone whose dedication and hard work make our journey toward a sustainable future possible.

Thank you for being with us on this journey.

AITAS KZ'S CONTRIBUTION TO THE ACHIEVEMENT OF THE SDGS3

UN SDG

AITAS HOLDING'S CONTRIBUTION

As a leading agro-industrial company producing key consumer goods, AITAS aims to ensure the sustainable development of the country through the advancement of national food security. **We account for 39% of total production in the Republic of Kazakhstan.**

The Fund for Sustainable Development of Education (part of the AITAS Foundation) implements educational projects aimed at building the intellectual capital of future generations by bridging the gap in education quality —regardless of a person's status, age, or place of residence. **Today, we are working with 191 schools in rural areas and single-industry towns, and we plan to reach all such towns and rural district centers in Kazakhstan by the end of 2025.**

AITAS ensures sustainable regional employment: the holding employs 4,840 people, with an average salary 4% above the market level and a retention rate of 79%.

The company develops training programs, internal career growth opportunities, and social support for employees, especially in rural areas. AITAS invests in technological innovation and digitalization, supports small businesses and local suppliers, and builds a business model where growth is achieved without harming society or the environment.

AITAS strives to be a leader in leveraging advanced technologies in the agricultural sector, allocating significant resources to the development and implementation of innovative solutions in IT, automation, and product innovation. We apply a data-driven approach.

Through the Fund for Sustainable Development of Rural Areas (part of the AITAS Foundation), AITAS supports the development of rural areas in partnership with the government and local communities. Over 150 projects have been implemented, totaling more than 2.2 billion tenge, across economic, environmental, and social sectors. Special emphasis is placed on local community involvement — from supporting grassroots initiatives to jointly planning the future of the region.

AITAS ESG STRATEGY

Guided by the UN Sustainable Development Principles, AITAS implements its ESG strategy through the following areas:

SUSTAINABLE ENVIRONMENT

ENVIRONMENTAL AND BUSINESS HARMONY

Responsible decisions guided by ecosystem priorities taking into account the role, responsibility, and capabilities of business.

SUSTAINABLE COMMUNITY

FUTURE-GUIDED PATH, BUILT FOR GENERATIONS

A meaningful contribution to the country's development through building intellectual capital in the younger generation.

SUSTAINABLE BUSINESS

THE LARGEST AGROHOLDING IN THE COUNTRY, among the TOP 5 in the EAEU by capitalization, redefining the industry.

The ESG strategy will be further detailed over time.

SECURITY, RISK MANAGEMENT, AND INTERNAL CONTROL

Aitas KZ JSC operates under a Three Lines of Defense model, approved by the Board of Directors and aligned with international standards:

The First Line – business units that independently manage risks within their operational activities.

The Second Line – specialized functions (risk management, internal control, security) that support and oversee the implementation of policies.

The Third Line – an independent internal audit function, reporting directly to the Board of Directors, responsible for evaluating the effectiveness of systems and procedures.

THREE LINES OF DEFENSE MODEL

BUSINESS ETHICS

At AITAS Holding, business ethics are part of the culture — not just a document.

The company's operations are based on **values-driven management**, where every level of interaction and decision-making is built on **trust and drive, responsibility and freedom, curiosity and courage**.

The fundamental norms of conduct are outlined in the **Corporate Culture Code**.

The **Code of Business Conduct and Ethics**, currently being developed in 2025, will serve as a logical extension of these practices and formalize them:

- Honest Business Practices;
- Anti-Corruption and Conflict of Interest Prevention;
- Respect for Human Rights;
- Creating a Safe and Respectful Working Environment;
- Implementing Transparency and Feedback Mechanisms.

This approach establishes a unified ethical standard across the company — from strategic decisions to everyday actions.

ANTICORRUPTION MEASURES

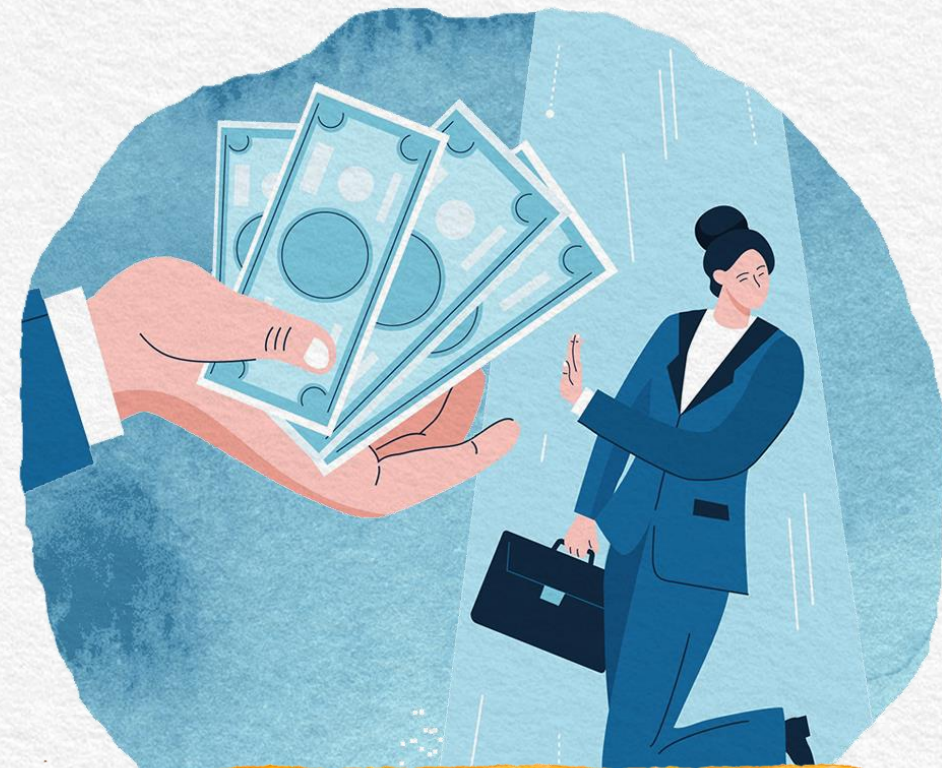

The Holding adheres to a zero-tolerance policy toward corruption in any form.

Key Tools for Detection and Response

- Monitoring of internal operations;
- Inspections, audit, and investigations;
- Notices from law enforcement agencies;
- Legal proceedings;
- Unified reporting channel for employees and counterparties.

3

In 2024, three ^(A) violations were identified, related to price collusion, theft, document forgery, non-compliance with procurement procedures, and engagement of improper counterparties. Appropriate measures were taken in response to all identified violations.

0

No cases of bribery or commercial bribery have been recorded ^(A). During the reporting period, no criminal cases related to corruption offenses were initiated ^(A).

TRANSFORMATION INTO A FOOD COMPANY

FROZEN AND CHILLED POULTRY PRODUCTS

READY TO EAT SAUSAGE PRODUCTS

READY TO COOK MARINADES

The updated strategy of AITAS focuses on increasing capitalization through the development of a brand portfolio and expansion into the markets of China and Central Asia, leveraging Kazakhstan's raw material advantage and a digital platform.

This marks a significant stage in the company's transformation from a leading agro-industrial (raw material) holding into a food company. It requires a deep understanding of the customer and the development of a strong brand portfolio, centered around the core AITAS brand in the **Ready to Cook (RTC)** and **Ready to Eat (RTE)** categories.

The company actively invests in marketing research, customer insight analysis, brand development, innovation, and product range expansion, while closely tracking global trends in the poultry meat market within the semi-processed category.

Our high-tech facilities, equipped with world-class equipment, along with a fully integrated production cycle — from feed cultivation to packaging — ensure consistently high product quality.

The products meet international quality standards (ISO 9001 and ISO 22000), carry the "ECO" label, are Halal-certified, and comply with HACCP requirements.

Detailed descriptions of quality certificates can be found in the Appendix on page 50.

SOCIAL ENGAGEMENT: FUND FOR SUSTAINABLE DEVELOPMENT OF EDUCATION

Fund for Sustainable Development of Education (FSDE) is a change agent implementing a strategic approach to nurturing a happy and successful generation capable of living and creating in the era of intellectual capitalism. At the core of every FSDE project lies the country's sustainable development strategy, with a key focus on building the intellectual capital of the next generation.

FSDE projects aim to transform rural schools into flagship schools — centers of expertise and values-based education — ensuring access to quality education in every rural region.

We operate under a unified methodology, drawing on best practices and working in partnership with the government, NGOs, leading national school networks, businesses, and the professional community.

KEY RESULTS OF ACTIVITIES IN 2024:

- The Food and Agriculture Organization of the United Nations (FAO) and the International Organization for Migration are implementing pilot projects in the Bulandy District.
- In cooperation with JSC NC "Kazakh Tourism", a master plan for the development of tourism in the Katon-Karagay District has been developed.
- Katon-Karagay District in East Kazakhstan Region became the first village in Kazakhstan to have a design code developed.
- In the village of Katon-Karagay, Samruk Kazyna Trust funded the construction of a sports ground.
- Design and estimate documentation (DED) was developed for the construction of 73 houses in flagship villages of the Bulandy District for residents affected by spring floods.
- Together with the East Kazakhstan Region Akimat, funding was provided for the international eagle hunting festival "Shygys Salburyny" in Ulan District, which attracted over 5,000 spectators.

SOCIAL ACTIVITIES — CONNECTED

On October 18–19, 2024, the international **Connected** conference was held at the Palace of Independence in Astana, with **AITAS Holding** as the general sponsor. The event aimed to bring together leading global experts, thought leaders, and practitioners for a dialogue about the future of the planet and humanity.

Connected is a platform for exploring visions of the future through the perspectives of cultures and philosophies, technologies and innovations, and interaction with nature.

The conference brought together outstanding agents of change, including humanist and futurist **Gerd Leonhard**, Nobel laureate in green economy **Rae Kwon Chung**, **Yong Zhao**, professor at the University of Kansas, **Peter Frankopan**, Oxford professor and author of the bestselling book “The Silk Roads”, as well as the first editor-in-chief of WIRED magazine and bestselling author **David Rowan**, among many others.

Key discussions were structured around three thematic pillars: “Understanding the Future,” “Education and Science of the Future,” and “Educational Technologies and Impact Entrepreneurship.”

The conference was held in the spirit of **open mind**, enabling participants to speak openly, boldly, and substantively—in an atmosphere of intellectual honesty, respect, and meaningful dialogue.

SOCIAL ACTIVITIES — CONTRIBUTION TO THE COMMUNITY

Aitas KZ JSC is the only agricultural holding company to reach the finals of the **SDG Pioneer** award—an accolade established under the United Nations Global Compact to recognize business achievements aimed at sustainable development and addressing global challenges. Since 2023, **AITAS** has been an official and full-fledged participant of the **UN Global Compact**.

Fund for Sustainable Development of Education won the “Sustainability and ESG Initiative” nomination at the Digital Almaty Awards 2025 for its contribution to education development.

Fund for Sustainable Development of Education received an award from the “Qazaqstan Khalkyna” Public Foundation for its lasting contribution to the development of rural schools and support of education in Kazakhstan.

OUR TEAM — CORPORATE CULTURE

We build a culture of values and personal involvement. Joint events strengthen internal connections and a sense of belonging, helping to implement the Holding's principles in everyday work.

OPEN COMMUNICATION AND ENGAGEMENT FORMATS:

- Town Hall – employee meetings with the Founder of the Holding and the CEO;
- general meetings at production sites;
- discussions on the internal portal and corporate network;
- charity initiatives;
- professional and calendar holidays;
- team building, etc.

OUR TEAM — EMPLOYEE SOCIAL SUPPORT AS A COMMITMENT TO WELL-BEING

- We continue to care **about the well-being of our employees** in order to improve their quality of life;
- **The social support** provided by the Company is focused specifically **on production and technical personnel**;
- **In 2024**, the total amount of payments amounted to **199.5 million KZT**, and the total number of recipients was **928 people**. Payments are focused on significant employee events, such as a wedding, the birth of a child, the beginning of the school year for children, the graduation of children from school, and others.

OUR TEAM — OCCUPATIONAL HEALTH AND SAFETY

AITAS Holding has an effective integrated occupational health and safety management system aimed at ensuring the safest possible working conditions and maintaining the health of employees.

Occupational health and safety principles

- prevention of industrial injuries;
- creation of safe working conditions;
- compliance with the legislation of the Republic of Kazakhstan and international standards;
- "zero tolerance" for violations of safety requirements.

AITAS Occupational Safety Goals :

- zero fatal and serious accidents at work;
- reduction of the overall level of injuries;
- active involvement of employees in improving the occupational safety system and managing industrial risks.

AITAS VISION FOR DEVELOPMENT IN THE FIELD OF ENVIRONMENTAL PROTECTION

VISION

Environmental and business harmony

MISSION

Achieving carbon neutrality and full recycling by 2050

STRATEGY

The Mission is achieved through ecosystem-first decision making, taking into account the role, responsibility and potential of the business, as well as through the strategy of the AITAS Rendering & Recycling business line (ARR) through the Zero Waste concept.

KEY PERFORMANCE RESULTS IN 2024:

- Emission and water intake permits were obtained for Aitas-energo LLP, Ust-Kamenogorsk Poultry Farm JSC, Nauryz Agro LLP and Makinsk Poultry Farm LLP
- The Environmental Policy was updated taking into account changes in the legislation of the Republic of Kazakhstan
- Modernization of the facilities of Ust-Kamenogorsk Poultry Farm JSC was carried out: Poultry Processing Plant (PPP) and Feed Mill (FMP) with the introduction of an automated process control system
- The 2nd stage of air purification was installed at the Meat and Bone Meal Plant of MPF

GOALS FOR 2025:

- Implementation of the ISO 14001:2015 environmental management system
- Conducting a Comprehensive Technological Audit of the International Center for Green Technologies and Investment Projects JSC
- Preparation for obtaining a comprehensive environmental permit
- Preparation for digitalization of emission, discharge and waste accounting processes

ARR ZERO WASTE APPROACH

AITAS strives for high environmental safety standards aimed at reducing the negative impact on the environment.

One of the key solutions to the development of environmental protection is the transition to zero-waste production.

The Holding strives to achieve zero waste through the Strategy of the AITAS Rendering & Recycling business line.

ARR MISSION:

Achieving sustainable resource use and minimizing waste through the Zero Waste concept (full recycling)

ARR STRATEGY:

Achieving sustainable use of resources and minimizing waste through the Zero Waste (full recycling) concept using new technologies

ARR GOALS:

- Achieve Zero Waste at the Holding's enterprises using new technologies
- Stage-by-stage implementation of 4R approaches at all production sites by 2035
- Transform non-core resources (waste) into high-margin products

Independent practitioner's assurance report

To the Shareholders and Management of Aitas KZ JSC

Scope

We have been engaged by Aitas KZ JSC (hereinafter "the Company") to perform a 'limited assurance engagement', as defined by International Standards on Assurance Engagements, (hereinafter "Engagement"), to report on the selected indicators in the field of sustainability (hereinafter "Subject Matter" or "Indicators") contained in the Company's Sustainability report (hereinafter "the Report") for the period from January 1 to December 31, 2024 (hereinafter "the Reporting Period").

Subject Matter with relevant GRI-indexes includes following disclosures:

- ▶ 2-7 Employees, pp.27,41;
- ▶ 2-9 Governance structure and composition, p.11;
- ▶ 2-27 Compliance with laws and regulations, pp.34,35;
- ▶ 202-1 Ratios of standard entry level wage by gender compared to local minimum wage, pp.27,41;
- ▶ 203-1 Infrastructure investments and services supported, p.21, 41;
- ▶ 205-3 Confirmed incidents of corruption and actions taken, pp.14,41;
- ▶ 302-1 Energy consumption within the organization, pp.35, 40;
- ▶ 303-5 Water consumption, pp.34,40;
- ▶ 305-1 Direct (Scope 1) GHG emissions, pp.35,40;
- ▶ 305-7 Nitrogen oxides (NOx), sulfur oxides(SOx), and other significant air emissions, pp.34,40;
- ▶ 306-3 Waste generated, pp.34,36,40;
- ▶ 306-4 Waste diverted from disposal, p.36;
- ▶ 401-1 New employee hires and employee turnover, pp.27,41;
- ▶ 403-9 Work-related injuries, p.30, 41.

The Subject Matter is also disclosed in the following section of the Report: "GRI Content Index" and relevant sections of the Report which the GRI index refers to, pp. 42-48.

Subject Matter is marked in the Report with the symbol "(A)".

Other than as described in the preceding paragraph, which sets out the Subject Matter, we did not perform any assurance procedures on the remaining information included in the Report, and accordingly, we do not express a conclusion on this information.

Criteria applied by the Company

In preparing Subject Matter the Company applied the

- ▶ Global Reporting Initiative Sustainability Reporting Standards 2021 (hereinafter "the GRI Standards"),

as set forth in the "About the report" section of the Report, p. 2 (hereinafter "the Criteria").

Company's responsibilities

The Company's management is responsible for selecting the Criteria, and for presenting the Subject Matter in accordance with that Criteria, in all material respects. This responsibility includes establishing and maintaining internal controls, maintaining adequate records and making estimates that are relevant to the preparation of the subject matter, such that it is free from material misstatement, whether due to fraud or error.

EY's responsibilities

Our responsibility is to express a conclusion on the presentation of the Subject Matter based on the evidence we have obtained.

We conducted our limited assurance Engagement in accordance with the *International Standard for Assurance Engagements Other Than Audits or Reviews of Historical Financial Information* ('ISAE 3000 (Revised)') and the terms of reference for this Engagement as agreed with the Company. ISAE 3000 requires that we plan and perform our Engagement to obtain limited assurance about whether we are aware of any material modifications that need to be made to the Subject Matter in order for it to be in accordance with the Criteria, and to issue a report. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risk of material misstatement, whether due to fraud or error.

We believe that the evidence obtained is sufficient and appropriate to provide a basis for our limited assurance conclusions.

Our independence and quality management

We have maintained our independence and confirm that we have met the requirements of the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants and have the required competencies and experience to conduct this assurance Engagement.

EY also applies International Standard on Quality Management 1, *Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services engagements*, which requires that we design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Description of procedures performed

Procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed. Our procedures were designed to obtain a limited level of assurance on which to base our conclusion and do not provide all the evidence that would be required to provide a reasonable level of assurance.

Although we considered the effectiveness of management's internal controls when determining the nature and extent of our procedures, our assurance Engagement was not designed to provide assurance on internal controls. Our procedures did not include testing controls or performing procedures relating to checking aggregation or calculation of data within IT systems.

A limited assurance engagement consists of making enquiries, primarily of persons responsible for preparing the Subject Matter and related information, and applying analytical and other appropriate procedures.

Our procedures included the following:

- We interviewed representatives of the Company's divisions involved in the preparation of the Subject Matter;
- We conducted analytical procedures of the quantitative information related to the Subject Matter;
- We examined sustainability-related internal corporate documents of the Company;
- On a sample basis we compared the Items included in the Subject Matter with source information;
- We evaluated the presentation of the Subject Matter in the layout of the Report.

We also performed such other procedures as we considered necessary in the circumstances.

Conclusion

Based on our procedures and the evidence obtained, we are not aware of any material modifications that should be made to the Subject Matter for the period from January 1 to December 31, 2024, in order for it to be in accordance with the Criteria.

Ernst & Young Advisory LLP

Almaty, Kazakhstan

ANNEX 1. REPORTING BOUNDARIES

The boundaries of the **"Sustainable Business"** section include the following entities:

Aitas KZ JSC, Ust-Kamenogorsk Poultry Farm JSC, Makinsk Poultry Farm LLP, Nauryz Agro LTD LLP, Aitas meat distribution LLP, Saryarka Construction Corporation LLP, Almaty Poultry Farm Zhetysu LLP, MEALPRO LLP, Aitas-Energo LLP, Aitas-MP LLP.

The boundaries of the **"Corporate Governance"** section include:

Aitas KZ JSC, Ust-Kamenogorsk Poultry Farm JSC, Makinsk Poultry Farm LLP, Nauryz Agro LTD LLP, Aitas meat distribution LLP, Saryarka Construction Corporation, Almaty Poultry Farm Zhetysu LLP.

The boundaries of the **"Our People"** section include:

Aitas KZ JSC, Ust-Kamenogorsk Poultry Farm JSC, Makinsk Poultry Farm LLP, Nauryz Agro LTD LLP, Aitas meat distribution LLP, Saryarka Construction Corporation LLP, Almaty Poultry Farm Zhetysu, LLP, MEALPRO LLP, Aitas-Energo LLP, Aitas-MP LLP.

The boundaries of the **"Average Wage of Production Personnel"** indicator include:

Ust-Kamenogorsk Poultry Farm JSC, Makinsk Poultry Farm LLP, Nauryz Agro LTD LLP, Aitas meat distribution LLP, Saryarka Construction Corporation LLP, MEALPRO LLP, Aitas-Energo LLP, Aitas-MP LLP.

The boundaries of the **"Workplace Injuries"** indicator include:

Ust-Kamenogorsk Poultry Farm JSC, Makinsk Poultry Farm LLP, Nauryz Agro LTD LLP, Aitas meat distribution LLP, Aitas-Energo LLP, Aitas-MP LLP.

The boundaries of the **"Sustainable Environment"** section include:

Ust-Kamenogorsk Poultry Farm JSC, Makinsk Poultry Farm LLP, Nauryz Agro LTD LLP, Aitas-Energo LLP, Aitas-MP LLP.

The boundaries of the **"Slaughterhouse Waste Processing"** indicator include:

Ust-Kamenogorsk Poultry Farm JSC, Makinsk Poultry Farm LLP.

ANNEX 2. ENVIRONMENTAL PROTECTION INDICATORS

GRI	Environmental Indicators	2022	2023	2024
306-3	Total volume of waste generation (excluding slaughterhouse waste), tons	132 764,2	181 026,7 ^(A)	176 749,31
303-5	Water Consumption, m3	1 535 621	1 979 503,5 ^(A)	2 024 755 ^(A)
305-7	Total emissions of pollutants into the atmosphere, tons	2 381	2 827 ^(A)	2 691 ^(A)
302-1	Energy consumption (electricity), kW	64 206 771	80 051 475 ^(A)	83 444 310 ^(A)
302-1	Energy consumption (coal), tons	40 641,9	50 164,5 ^(A)	49 954,9 ^(A)
302-1	Energy consumption (natural gas), tons	13 656,9	19 890,6 ^(A)	21 798,2 ^(A)
302-1	Energy consumption (diesel fuel), l	785 605	873 598,6 ^(A)	960 574,72 ^(A)
305-1	Direct greenhouse gas emissions *tons of CO2-equivalent	No information available	153 566,2 ^(A)	169 448,15 ^(A)

(A) = Data verified by Ernst & Young Advisory LLP

ANNEX 3. SOCIAL INDICATORS

GRI	Social Indicators	2022	2023	2024
2-7	Average headcount, people	3 299	4 333 ^(A)	4 840 ^(A)
401-1	Staff turnover, %	49	44 ^(A)	41 ^(A)
401-1	Number of employees hired per year, people	3 825	2 321 ^(A)	2 267 ^(A)
202-1	Average salary, thousand KZT	262	316 ^(A)	419 ^(A)
403-9	Fatal accidents	0	1 ^(A)	0 ^(A)
403-9	Total number of accidents, pcs.	7	9 ^(A)	5 ^(A)
205-3	Violations related to price fixing, theft, document forgery, non-compliance with procurement procedures, and the involvement of improper contractors	0	15 ^(A)	3 ^(A)
205-3	Cases of bribery or commercial bribery	0	0 ^(A)	0 ^(A)
205-3	Criminal cases related to corruption offenses	No information available	0 ^(A)	0 ^(A)
203-1	Social investments, in thousands KZT	473 573	810 231	1 268 841 ^(A)

Employee turnover rate = $A/B \times 100$, where A is the number of employees who resigned for all types of reasons for dismissal at the end of the reporting period; B is average headcount for the reporting period.

UKPF – Ust-Kamenogorsk Poultry Farm

UN – United Nations

- Controlled by the Veterinary Inspectorate of the Ulansky District
- Used to identify products for export deliveries
- When entering a new market (outside the EAEU), an additional stamp is assigned
- Assigned once and indefinitely

- Control is carried out by the Veterinary Inspectorate of the Bulandy District
- It is used to identify products for export deliveries
- When opening exports to a country outside the EAEU, an additional veterinary stamp is issued
- It is assigned once and indefinitely

- Conducted through the National Center for Expertise and Certification
- A mandatory condition for the sale of products on the territory of the Eurasian Economic Union (EAEU)
- Frequency:
 - Minimum — 1 time per year
 - Maximum — 1 time per 3 years
- PPP undergo the procedure annually

Certification of ecological products

- Certification body — International Association of Eco-friendly Products Manufacturers (Association of Legal Entities)
- Basis: Regulation "On the procedure for organizing the production, trade and control of eco-friendly products", approved by the International Academy of Ecology
- The certificate confirms the compliance of products with the quality requirements of eco-friendly products
- Frequency: annually

Kazakhstan Poultry Union Member

ISO 22000:2018 Certification

- International standard for food safety management systems
- Not included in the list of standards recognized by GFSI
- Certification body – SGS
- Frequency: annually

Halal Certification

- Certification Authority — DAMU
- Confirms the compliance of products and all stages of production, storage and processing with the requirements of Sharia
- Guarantees the possibility of consumption of products by Muslims without doubts about permissibility
- Frequency: annually

FSSC 22000 v.6 Certification

- International scheme for food safety management systems, recognized by GFSI
- Certification body – Quality Austria, registered with the International Accreditation Forum (IAF)
- Confirms compliance with global food safety requirements
- Frequency: annual certification of plants

Halal Certification

- Certification body — AHK
- Confirms product compliance with Sharia standards at all stages of production and storage
- Frequency: annually

GMO Free Confirmation

- The report is issued through (SES)
- Confirms that the product does not contain genetically modified organisms
- Frequency: annually
